Yo N2M,  
Is this a surprise or what!  
At last news from the POC Posse. Firstly we ask for forgiveness for not writing earlier - but I'm sure you've heard where we've been and what we've been up to. So you can understand.

Just to give you and update.

We started the Rapping for Democracy Tour five months ago. Its been funky....We took one month off to go to Denmark to perform at the "Images of Africa" concert in Copenhagen. It was slamming.

So check out TV in the next couple of weeks and you'll see the business.

At last - Yeh! At last - the 3rd album "Age of Truth" is completed and you're NOT gonna hear anything Hotter -So!

It will be released on the 18th October. If you can't find one in your record store, bug them, and also bug TV and radio to play it. Here are some radio numbers -

Radio 5 - 011 714 2906

Good Hope - 021 434 9115

Radio Metro - 011 714 2169

We have heard from other sources that the album could be banned. We can't understand why! It must be because we are telling the TRUTH! Certain people in our country can't face up to the truth.

We are going to be giving "Age of Truth" out at a special price to the POC Posse - we are now jacked up to cope with orders.

"Age of Truth" cassette R32, including postage.

Back Orders:

POC "OUR WORLD" cassette R18, inc postage.

POC "OUR WORLD" album R22, inc postage.

POC "BOOMSTYLE" album R22, inc postage.

The next letter will include prices of badges, caps etc.

Peace and we need your support
